OFFICE

CAFE QUALITY AT HOME

The Office Semi Auto, Control, Leva and Barista Minore machines embody precision engineering and classic espresso craftsmanship, delivering an exceptional coffee experience with a modern touch. Inspired by traditional café machines, they offer professional-grade performance in a sleek and durable design.

With a robust stainless-steel build and the iconic E61 group head, these machines ensure optimal extraction and consistency. Thoughtfully designed features, such as adjustable pressure controls, powerful heating elements, and efficient steam and water systems, make every coffee moment seamless and intuitive.

Whether for the home barista, the office coffee enthusiast, or a small café, these machines bring expert-level brewing to any setting.

For those looking to make a statement, the optional Ruggero shell allows for complete colour customisation, blending personal style with exceptional espresso-making capability.

Ruggero option available for Barista Minore and Leva models Only
